Global Liver Institute

It all starts with a patient.

"The gaps in liver health advocacy have resulted in 1.5 billion people living with liver diseases, most of whom are undiagnosed, undertreated. and over-stigmatized. I know because I am one of these people." Donna R. Cryer, founder, CEO and 27-year liver transplant survivor

Our Origin

Donna Cryer received a life-saving liver transplant in law school after years of living with an autoimmune disease. On the 20th anniversary of her transplant, she realized her experience as a patient, lawyer, and professional health systems consultant could help fellow patients. In 2014, she founded Global Liver Institute.

Our Mission

To improve the lives of individuals and families impacted by liver disease through promoting innovation, encouraging collaboration, and scaling optimal approaches to help eradicate liver diseases.

Our Vision

For liver health awareness to be universal and for liver disease to take its proper place on the global public health agenda consistent with its prevalence and impact.

Inclusion. Results.

Our Values

Your Support

As a non-profit organization, Global Liver Institute relies on grants and donations to fund our essential work. Please join us to secure a better future for patients everywhere.

"I've never felt I had a purpose until I went to GLI. Now I know my purpose is to make sure other people don't have to go through what we went through."

Kim M., Patient Advocate
